We hereby submit specifications and estimates for radon mitigation.

STANDARD SERVICES

- Seal radon entry routes and mechanical penetrations where accessible.
- All radon exhaust fans must be located either outside the conditioned area of the structure or in the attic of the house or garage.
- Installed radon mitigation system will be labeled according to the Ohio Radon Mitigation Standard.
- A visual performance indicator will be installed on all active (fan operated) systems to monitor system pressure.
- Conduct post-mitigation follow-up testing using a continuous radon monitor, 48 hours. This test will be performed by an independent 3rd party licensed testing company per EPA & ASTM best practice suggestion. **Velocity is the ONLY mitigation company that conforms to this suggestion.** The cost for this test is included in this proposal.

PROJECT SPECIFICATIONS

- Install sub-slab suction utilizing existing sump opening.
- Miscellaneous services or specialties.

Velocity Radon Mitigation

You should be aware that Velocity Radon Mitigation which was X was not the same business entity that was involved in the testing and provision of advice, which led to this mitigation contract made or this proposal. Velocity Radon Mitigation ODH Contractor Number RC-360; Licensed Specialist: Joe Noppert RS-580.

It is important that you know the advantages of long-term testing and the value of a second opinion as ways of verifying test results of the proposed mitigation, especially when the mitigation is performed by same business entity that was involved in the testing or provision of advice that led to the mitigation contract.

- GUARANTEE: Velocity Radon Mitigation guarantees radon reduction at or below 3.9 pCi/L for life which is a transferrable warranty. If the radon concentration is measured to be above 3.9 pCi/L, Velocity Radon Mitigation will furnish additional labor and materials at no additional cost to the home or business owner. The fan is warranted for 5 years from the date of installation which is also a transferrable warranty.
- Conditions either man made or natural, such as a high water table (groundwater presence underneath or surrounding the work area hard clay or sand that prevents adequate sub-slab or sub-membrane airflow) will void this guarantee.
- Fumes from glues and caulking material may be present for up to 24 hours after completion of work.

We Propose to furnish material and labor- complete in accordance with above specifications for the sum of: **\$1,400.00**

The estimated annual electrical cost to operate this system is \$67.00 per current rates.

Payment to be made as follows: NET DUE AT JOB INSTALLATION

All material is guaranteed to be as specified. All work to be completed in a workman like manner according to standard practices. Any alteration or deviation from above specifications involving extra costs will be executed only upon written request and will become an extra charge over and above estimate. All agreements are contingent upon strikes, accidents, weather or delays, which are beyond Velocity Radon Mitigations control.

HOMES WITH SUMP PUMPS: It is the home owner's responsibility to ensure the sump pump is operating properly and in good working order prior to the radon mitigation system installation. Velocity Radon Mitigation LLC is not responsible for any failures of sump pump or damages resulting from sump pump failure.

HOMES WITH CRAWL SPACES: All debris/material or storage must be removed prior to the commencement of work.

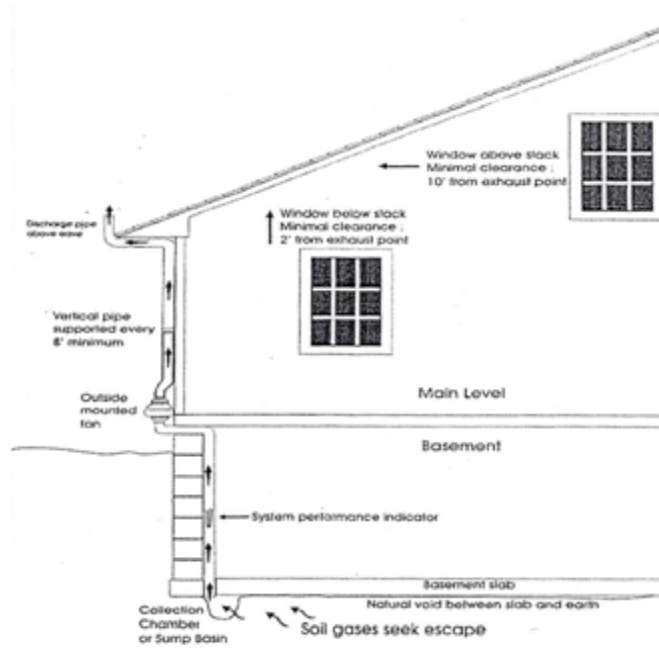

Authorized Signature: Joe Noppert
